Identifier 7.171.331.114

Description

It is a practical solution for meetings, events, and other occasions where coffee needs to be served away from the machine. The Airpot is also suitable for tea and is available in a variety of colours.
Filter coffee machines such as the **TH series** and several **buffet coffee machines** can be used directly with an **Airpot**. The **Airpot Furento** allows you to serve fresh filter coffee quickly and easily while keeping it at the ideal temperature and preserving its flavour for an extended period.
