

A collection of coffee beans of various sizes and shades of brown, scattered across a solid black background. The beans are in sharp focus, with some showing the characteristic crease and texture of roasted coffee beans. The lighting creates highlights on the edges of the beans, giving them a three-dimensional appearance.

Sego L raiser set

Price € 221,00

Identifier 7.270.623.101

Description

The Sego raiser set comprises a number of components: the Sego L pedestal, a larger waste bin, a larger drip tray, a lower drip tray grid and a pedestal for the milk fridge.

- The pedestal raises the standard Sego 11L/12L by 60 mm. This brings the total machine height to 650 mm.
- The larger waste bin can hold about 60 waste coffee capsules.
- The larger drip tray has room for more rinsing water, which means it needs emptying less frequently.
- The lower drip tray grid raises the tap height from 105 mm to 135 mm.
- The other pedestal is intended for the milk fridge. When the Sego is raised by 60 mm, the milk fridge must also be raised by 60 mm.

With a raiser set, it is also possible to connect the Sego L to a water outlet. See: [Drainage set for water drainage.](#)
