► *Menu items secured by PIN codes will be greyed out, see §6.3.10 on p.105 to set the PIN codes.*

8.5 Special functions

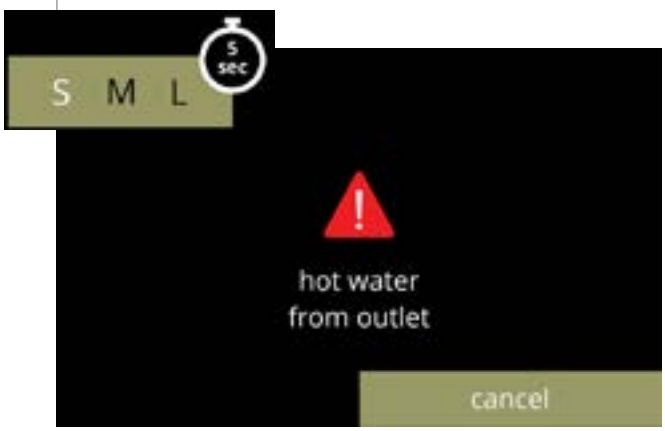

By using a “secret key combination” special features can be activated.

8.5.1 Cancel beverage on/off

See §6.3.11 on p.110.

► *Reason of this feature is that the customer can choose if the beverage can be cancelled or not when a payment system is connected.*

8.5.2 Quick rinse

By pressing the S M L on the beverage selection screen for 5 seconds the quick rinse is immediately activated with 90 ml (hot water) per mixing system.

► *To set this function, see §6.1.4 on p.31.*
